Re: Stop Sale, Use, or Removal Order (Docket No. FIFRA-03-2011-0277SS)

Dear Mr. Lehrenbaum:

The U.S. Environmental Protection Agency, Region III ("EPA"), has reviewed your request submitted on May 2, 2013, on behalf of your client, E. I. du Pont de Nemours and Company ("DuPont"), requesting a reduction to the frequency of reporting required by the Imprelis® Product Disposition Process approved by EPA subsequent to the issuance of the Stop Sale, Use, or Removal Order. Specifically, DuPont requests that the Process be modified to allow DuPont to submit quarterly rather than monthly progress reports, given the decreased volume of product returns during the past few months (zero reported in 2013 to date).

EPA hereby approves DuPont's request, and accordingly modifies Paragraph 15 of the "Disposition Process" such that DuPont is required to submit progress reports on a quarterly basis commencing on July 15, 2013, of any product returned during April, May, and June 2013, and quarterly thereafter until the submission of the final report. In addition, the scope of the report should be modified to reflect any anticipated returns during the upcoming quarter, rather than month, as is currently reported.

If you have any questions, please contact me at (215) 814-2129.

Sincerely,

A handwritten signature in black ink, appearing to read "Fatima El-Abdaoui".

Handwritten initials "for" in black ink.

Fatima El-Abdaoui, Ph.D., Chief
Pesticide and Asbestos Programs Branch
